JAY BAUTISTA CRISOSTOMO

Baton Rouge, Louisiana | +1 (225) 421-5949 | crisostomojay@outlook.com | GitHub

PROFESSIONAL SUMMARY

Software Developer with 3+ years of professional experience building, modernizing, and maintaining enterprise applications using **C#, .NET, ASP.NET Core, SQL, REST APIs, React.js, and JavaScript**. Experienced in full-stack development, legacy application modernization, production troubleshooting, database optimization, and Agile/Scrum delivery. Strong background in both enterprise software development and modern web development.

TECHNICAL SKILLS

Core .NET: C#, .NET Core, ASP.NET Core, MVC, RESTful APIs
Frontend: JavaScript (ES6+), React.js, Redux, Tailwind CSS, HTML, CSS, Responsive Design
Databases & Cloud: SQL, MySQL, MongoDB, Firebase
Tools & Practices: Microsoft Visual Studio, Git, Agile/Scrum, Debugging, Performance Optimization
Additional: Python, C++, React Native, Visual Basic, COBOL

PROFESSIONAL EXPERIENCE

Software Developer | *Louisiana Farm Bureau — Baton Rouge, La* *Aug 2022 - July 2025*

- Developed, optimized, and maintained mission-critical enterprise applications using **C#, .NET, and React.js**.
- Designed and implemented scalable full-stack features within Agile sprint cycles, supporting reliable application delivery.
- Modernized legacy system workflows by transitioning functionality into **.NET Core architectures**.
- Collaborated with cross-functional teams to gather requirements, troubleshoot production issues, integrate application workflows, and optimize database performance.

Software Engineering Intern | *LeNgineer — Titusville, Florida* *June 2021 - May 2022*

- Developed responsive frontend components for a mobile application using React.js, Redux, and Tailwind CSS.
- Built a real-time messaging system and secure data retrieval pipelines using Firebase and MongoDB.
- Contributed to sprint delivery through peer code reviews, engineering collaboration, and support for team members.

ENGINEERING PROJECT

Capstone Design — Autonomous Drone

- Programmed autonomous flight navigation and delivery logic using C++ and Python.
- Developed machine learning models for navigation accuracy and designed high-reliability hardware-to-software communication architecture.

EDUCATION

Louisiana State University (LSU), Baton Rouge, LA **May 2022**
Bachelor of Science, Computer Engineering GPA: 3.2
